Orientation Programme - 2016

“Polishing Your Talent Is the Key to Success”

Rakshpal Bahadur Group of Institutions organized an “Orientation Programme” on 09th-September-2016 for the fresher students of all the departments including, MBA, BBA, MCA, BCA, B.Sc. (ZBC), B.Sc.(PCM), B.Sc. (Hom. Sc.), & B.Com. under Rakshpal Bahadur Management Institute [RBMI]; B.tech. & Engineering Diploma under Rakshpal Bahadur College of Engineering & Technology [RBCET]; B. Pharma. & M. Pharma. under Rakshpal Bahadur College of Pharmacy [RBCP]; and B.Ed. & M.Ed. under Rakshpal Bahadur Teachers Training Institute [RBTTI].

The programme started with the lighting of lamp in front of ‘Maa Saraswati’.

On this event, Mrs. Veena Mathur (the Founder & Chairperson of RBMI) welcomed all the students in the institute and guided them for being in discipline. She assured the students that all the resources of the institute will be available round the clock for their better development.

Dr. Neeraj Saxena (Director-RBMI) introduced them with the disciplines of the institute and motivated them to work hard and run for their better life!

Mr. Raizada Sorabh Bali (Corporate Trainer & Motivational Speaker) was invited as the “Chief Speaker” of the day.

He discussed different strategies for becoming a successful person and guided them about the importance of time management, hard work, broad mindset, positivity, and dedication in every field of life.

All directors from different departments of RBMI group introduced the students with their respected courses, and shared information about academic activities going to be held during the whole year and explained

them about the examination process.

Mr. Anoop Saxena from Corporate Resource Centre, RBMI group detailed them about the previous placements of the institute.

Mr. Hemant Bhardwaj (Proctor) requested the students in creating a “Ragging-free environment” of the institute and also introduced them with the members of the Proctorial Board.

Fresher's party (Abhinandan-2016)

23th & 24th -September-2016.

Rakshpal Bahadur Group of Institutions, Bareilly campus gave a warm welcome to all the fresher students via organizing "ABHINANDAN-2016" on 23th & 24th -September-2016. Newly admitted students from MBA, MCA, B.tech, B.pharma, BBA, BCA, B.Sc., B.Com. & B.Com.(H), B.Ed & M.Ed. were musically greeted by their seniors from the respective departments.

The programme began with the enlightenment of lamp in front of 'Maa Saraswati' by the Founder & Chairperson of RBMI Group "Mrs. Veena Mathur"; Managing Director "Er. Naveen Mathur"; Director-RBMI "Dr. Neeraj Saxena"; Director-IT "Dr. Rajesh Verma"; Director-RBCET "Dr. Vineet Agarwal"; Associate Director-RBCET "Dr. Ashish Mishra".

On this event, Mrs. Veena Mathur addressed the students saying that, "RBMI Group has been establishing its name & fame in higher education since the

last 20 years. Students from the campus are not only excelling in academics but also performing well in cultural, sports & social activities. The newly-admitted students are also expected to come up with the same or better results."

Cultural program began with 'Saraswati Vandana'.

Afterwards, a series of eye-catching programs created a joyous environment all around. Yasir 'n' group gave a mind-blowing performance on Jhankar Band. Hilarious Group Dance & Solo Dance performances were given by the students from the respective departments with more than 50 amazing and mind blowing performances.

Dr. Neeraj Saxena (Director-RBMI) congratulated the students on their excellent participation and expected for their best in academics & co-curricular activities during all sessions, as well.

TECHMANIA-2016

16, 17-November-2016

TECHMANIA-2016 Rakshpal Bahadur Group of Institutions organized technological & managerial fest "TECHMANIA" during 16-17 Nov. 2016 in the college Campus. Mrs Veena Mathur, Executive Chairperson of Rakshpal Bahadur

Group of Institutions inaugurated the festival by enlightening the lamp. TECHMANIA, the platform which provided galaxy of events with fine blend of competitions and fun with knowledge. So many students from different cities participated enthusiastically in this festival. Participants are categorized in two different groups one from – Class

12th students and one from Under Graduation students. And the organized events are : Icons, Techisoft, *Tasveer*, Technum, ZigSaw, Techmo, *Chakravyuh*, *Kruiti*, Admad Show,

Samavesh, Innovision, *Prashnmanch*, Bulls & Bear, *Ranneeti* and *Tehkikaat*. Around 2000 students from all over India participated in different Technical & Managers events and made it one of the great events of the college. Rockers BAND presented by the students of Rakshpal Bahadur Group of Institutions was the point of attraction for the participants on both days of the festival. The major participating schools were Hartmann School Bareilly, Harrow School Bareilly, Greenwood School Rampur, Don-n-Dona Shahjahanpur, BBL School Bareilly, St. Maria School Bareilly, and GPM School Bareilly. The festival was completed successfully under the able guidance of Dr. Neeraj Saxena, Dr. Vineet Agarwal, Dr. Ashish Mishra & Dr. Rajesh Verma.

HR-SUMMIT 2016

19-October-2016

RBMI Group of institutions organized a national level HR Summit in which HR professionals not only from national level but also from multi-national corporates were invited. The most prominent among them are Mr. Vishal Chaudhary (Head HR Airtel), Mr. Ravi Sinha (G.M. HR Hero Moto Corp), Mr. Chitvan Bora (D.G.M HR, Tata Motors), Mr. Ajay Bhatt (Manager HR B.L. Agro), the programme was initiated with the lamp lighting ceremony followed by formal welcome speech given by Executive Chairperson RBMI, Mrs. Veena Mathur. In her speech, she emphasized on various aspects of human resource management and also thrown light on the usefulness of human resource development for enhancing the organisations efficiency and effectiveness.

Later on, Eng. Navin Mathur added his valuable words by focussing on the importance of organising the HR Summit 2016. He said that this programme will definitely help the students to learn the current trends prevailing in the corporate sector which in turn help them in availing better job opportunities.

After that, various HR professionals share their experiences with the students and also enlightens them by telling about various HR trends.

The programme ended by memento presentation and a vote of thanks to all the reputed professionals. The programme is conducted under the guidance and supervision of CRC Head Mr. Anoop Saxena. The contributions of the faculty members and other staff members made this programme a success.

THE SPEAKERS WERE

Mr. Vishal Chaudhary HR Head Airtel emphasized that to be successful in the corporate world students need to be dedicated and committed. He further added that in the coming years robots will replace human resource and as such scope of students having knowledge of artificial intelligence will increase.

Mr. Ravi Sinha- D.G.M HR Tata Motors- said that mere knowledge without its practical application have of no use. Therefore in addition to knowledge it is necessary that students should also focus on improving their soft skills.

Mr. Chitvan Bora- D.G.M HR Tata Motors addressed the students and said that the students should identify their inherent strengths to achieve success. The need of the hour is versatile nature of the workforce which can best meet the requirements of the job.

Mr. Ajay Bhatt- Manager HR B.L. Agro said that human resource is the most important resource in the organisation and to improve organizational efficiency and effectiveness it is necessary to train the workforce as per current market requirements.

Industrial visit for marketing students at Phoenix mall Bareilly 12-August-2016

On August 12, 2016, a tour was organized for MBA final year students where they visited Pantaloons stores at Phoenix mall. During the intellectual session with the HR the students learned about the products that are being offered by the company to its customers, various retailing techniques that the company adopts like customer relationship management, inventory management etc.

Guest Speech on Role of Engineers in Today's World (By Er. M.P.SHARMA) 22-August-2016

Engineers are today's back bone of the industrialization phase. From small gadgets to big cities all have been developed by their hands. And as such to introduce our students (Fresher's) with their role in engineering a guest speech programme by Er. M.P Sharma was organized in RBCET. Where our respected guest speakers laid emphases on the role of engineers. He introduced them with certain key concepts on "How to be a better Engineer. "The

second half session was marked by the students' presentations on new trends in engineering which have been emerging in our nation and they were judged by Er. Mayank Prakash Agarwal and our guest speaker Er. M.P Sharma. The session was closed by vote of thanks from Director Dr. Vineet Agarwal.

Teacher's Day Celebration

05-September-2016

Under the umbrella of RBMI Group of Institutions all RBMI Family members celebrated teachers' day. The programme starts with formal lamp lighting ceremony of *Maa Saraswati*. The chairperson Mrs. Veena Mathur, Director RBMI Dr. Neeraj Saxena, M D, Mr. Navin P. Mathur congratulated the runner up and winner team.

ARTICLE UPDATES – “POWER OF IDEAS”

Digital Payment in India- Challenges and Opportunities

When the Indian government demonetized high-value banknotes on the night of 8 November, taking out 86% of the currency in circulation by value, it was supposed to be a war on unaccounted-for and untaxed wealth, counterfeit notes and terror financing. Somewhere along the way, as serpentine queues formed outside bank branches and automated teller machines (ATMs) for days and weeks together, the slogan changed.

It became all about promoting a cashless or at least a less-cash culture in an economy where almost 90% of transactions are paid for in cash. The talk turned to technologies such as mobile wallets, cryptocurrencies such as Bitcoin, mobile peer-to-peer payments, block chain technology, payment banks and architectures such as the unified payment When the Indian government invalidated high-value banknotes on the night of 8 November, taking out 86% of the currency in circulation by value, it was supposed to be a war on unaccounted-for and untaxed wealth, counterfeit notes and terror financing.

Indeed, the growing popularity and rapid adoption of digital payment systems, in the face of a shortage of cash and stringent limits on bank withdrawals, may be a silver lining to the demonetization of Rs500 and Rs. 1,000 notes—an exercise that some critics have slammed as ill-conceived and hastily implemented.

To be sure, India has a long way go before it joins the ranks of countries such as Sweden, Finland, Canada, the Netherlands, Belgium, Singapore, France and the UK where more than 85% of the consumer payment transactions are done digitally.

Barriers to a cashless world include the fact that “some merchants still don’t want the infrastructure costs and fees associated with electronic payments; some customers still find cash more convenient; access is an issue for individuals without bank accounts; and fraudsters continue to find opportunities in electronic transactions.

Security is another big concern. Those who have been transacting online are fairly well-versed with the threats one can face while paying online, it’s the first-time users or new adaptors that need to be educated on the risks they are exposed to.

There are 5 key challenges to government’s policy on going cashless in India:

1. Tech literacy - even reasonably educated often get stumped with many of the technologies.
2. Tech coverage - India’s cellular internet coverage is not that good and so is the smartphone penetration.
3. Financial inclusion - Many don’t have easy access to banks, ATMs, Point of Sale terminals etc.
4. Transaction fees - the existing players like Visa and Master card charge exorbitant fees especially for smaller transactions.
5. Enforcing tax rules - In India, most shopkeepers escape from paying taxes as the rules are complicated and taxes are high. Getting them to comply is going to be hard.

In order to be successful in cash less India drive, we must work to find out solutions to these issues.

By:- Dr. Pankaj Agarwal
(Associate Professor- Management Department)

Research Status of Personalized Medicine in Pharmaceutical Field

Personalized medicine is very growing and advance field of healthcare that is informed by genetics, genomics and environmental information. These factors are different for every person, the nature of diseases: including their onset, their course, and how they might respond to drugs as individual as the people who have them. This kind of medicine is making the treatment as individualized as the disease. Most of the studies suggest, these drugs involve Identifying genomic, and clinical information that allows precise predictions to be made about a person's susceptibility of developing disease, and its response to treatment.

Furthermore, personalized medicine to be used merely by healthcare providers and their patients, these findings must be translated into precise diagnostic tests and targeted therapies. It has begun to happen in specified areas, such as testing patients genetically to determine their adverse reaction.

Most of the scientists and physicians are advancing the field of personalized medicine at a fast pace. This is not yet fixed part of the clinical practice, but a number of top-tier medical institutions have personalized medicine programs, and they are actively conducting research and clinical studies in genomic medicine. This kind of medicine has taken major position in the pharmaceutical field because these kinds of medicine address any disease at genomics level.

The idea of personalised medicine can be implemented to new and transformative approaches to health care. Personalised health care is purely based on the dynamics of systems biology and uses predictive tools to analyse health risks and to design personalised health plans to help patient's moderate risks, prevent disease and to treat it with precision when it occurs. Personalised health care are taking position of acceptance with the Veterans Administration committing to personalised, proactive patient driven care for all veterans (who has had long experience in a health care field).

Moreover, Mostly companies that test the DNA of paying consumer such as deCode Genetics, 23and Me, and Navigenics, are being launched around the all over world. Meanwhile, some states now regulate direct-to-consumer genetic tests, regulation is not yet standardized. Mostly Experts suggest that consumers seek interpretation of test results from a professional who specialized or perfect in this type of testing.

Few people may not wish to know their genetic risk for some conditions, such as their chances for developing and untreatable condition, Cancer disease others may find such information has personal utility. For instance, they may use the knowledge they gain more to plan for the future. Our DNA can provide other many insights, as well, such as who our ancestors were. As personalised medicine is practiced widely, a number of challenges arise. The recent approaches to intellectual property rights, reimbursement policies and patient confidentiality as well as regulatory oversight will have to be redefined and organized to accommodate the changes personalised medicine will bring to healthcare.

(Assistant Professor- Pharmacy Department)

MASTERING YOURSELF

Study the following information carefully and answer the questions given below:

A Guest house accommodates twelve persons in six rooms. The persons are A, B, C, D, E, F, P, Q, R, S, T and U. The rooms are 1, 2, 3, 4, 5 and 6. Each room of the guest house is coloured with different colours. Those colours are blue, green, yellow, black, pink and white. Each room accommodates two persons.

A, B, Q, R, T and U are the only males in the group. Female's rooms are odd – numbered whereas male's rooms are even-numbered.

- i. A and B share room. C's roommate is not D.
- ii. E does not live in 6, which is yellow. Neither room 5 nor room 4 is blue or black.
- iii. The pink room is an odd number but it is not room 3. F lives in room 5 with D
- iv. P's roommate is not S. The blue room is even numbered.
- v. R lives in the green room whereas D lives in the white room.
- vi. S does not live in room 3. T's room is blue.

Q1. Who among the following are accommodated in the pink-coloured room?

- E and S
- C and S
- P and C
- Data inadequate
- None of these

Q2. Who among the following are accommodated in room 3?

- P and C

- P and E
- C and E
- Data inadequate
- None of these

Q3. In which A and B are accommodated?

- a) 2
- b) 4
- c) 6
- d) Data inadequate
- e) None of these

Q4. Which of the following statements are definitely true?

- I. U is the partner of T
 - II. Q is the partner of D
 - III. R is the partner of Q
 - IV. U is the partner of R
- a) Only i
 - b) Only ii
 - c) Only iii
 - d) Both i and ii
 - e) None

Q5. Which of the following statements is/are definitely false?

- (A) A and B are accommodated in the yellow room
 - (B) Q is accommodated either in the blue room or in the green room
 - (C) C is accommodated either in the Pink room or in the black room
 - (D) U is accommodated in room 2
- a) None
 - b) Only D
 - c) Only A & D
 - d) Only B & D
 - e) All are true

***Answers in the next issue.....**

Answer of the previous puzzle is:

Q1.Ans: 12

Q2.Ans: V

Sol.

Start at A and work clockwise to alternate segments in the sequence ABcDefGhijKlmnoPqrstuV.

Q3Ans: D.

Q4Ans: Cochlea

Sol.

It is part of the ear, the rest being part of the eye.
